---

## PROFESSIONAL SUMMARY

Skilled **Full-Stack Developer** with over 3 years of experience in building scalable, user-centered applications using the **MERN stack**. Proficient in **frontend** development (**React.js**, **Next.js**) with expertise in UI development, component-based architecture, and responsive design. Expanding **backend** knowledge in **Node.js**, **Express**, and **MongoDB**. Passionate about delivering high-quality solutions through **Agile methodologies**. Proven track record of enhancing user engagement, optimizing application performance, and collaborating with cross-functional teams.

## TECHNICAL SKILLS

<b>Frontend:</b>	React.js, Redux Toolkit, Next.js, HTML5, CSS3, Tailwind CSS
<b>Backend:</b>	Node.js, Express, REST API, GraphQL, PHP (Laravel)
<b>Databases:</b>	MongoDB, MySQL
<b>Testing:</b>	Vitest, Jest, Cypress, Karma, TDD
<b>DevOps &amp; Tools:</b>	Git, Docker, CI/CD pipelines, Vercel, Agile/Scrum

## WORK EXPERIENCE

### Software Developer - Internship

May 2024 – Aug. 2024

rCycle, Toronto

- Collaborated with cross-functional teams to enhance rCycle's analytics, recycler, and retailer portals, improving client satisfaction and accessibility.
- Optimized the WordPress website (rcycle.co) by implementing responsive designs with PHP, HTML5, and CSS3, resulting in a **25% improvement** in page load speed and **15% increase** in organic traffic.
- Designed and developed custom WordPress themes and plugins in a local server environment to meet specific client and project requirements.

### React Developer

Nov. 2021 – Jan. 2023

SIRE, Toronto

- Developed scalable, modular web applications using React.js and Next.js, contributing to a **40% increase** in user engagement and **35% improvement** in application performance.
- Integrated robust APIs to provide startups with essential business tools, driving ecosystem growth and aligning with SIRE's mission.
- Collaborated with backend teams to ensure seamless API integrations, enhancing the startup experience and supporting SIRE's vision.

### Frontend Developer

Jun. 2020 – Nov. 2021

Digiato

- Redesigned the frontend of a high-traffic tech news platform using React and REST APIs, achieving **60% faster load times** and a **25% improvement** in Alexa ranking.
- Built a real-time notification system, increasing user engagement by **40%** through timely updates and seamless navigation.
- Developed a responsive architecture using reusable React components, enabling faster iteration on new features aligned with market needs.

PROJECTS

CodeLance (Capstone Project) | [GitHub Link]

Tech Stack: React, Node.js, MongoDB, JWT, OTP API, Tailwind CSS

- Developed a **full-stack freelancing platform** using the **MERN stack** with **JWT authentication**, connecting employers and freelancers for seamless collaboration.
- Enhanced security with **OTP-based** user authentication and designed workflows for project posting, proposal submission, and messaging, streamlining the collaboration process.
- Crafted a responsive UI using **Tailwind CSS**, leading to increased engagement among freelancers and employers.

Expense Tracker | [GitHub Link]

Tech Stack: React, Node.js, MongoDB, Passport, GraphQL, Apollo

- Designed and developed a **full-stack expense tracking application** using **GraphQL** and **Apollo**, enabling efficient budgeting through complex data relationships management.
- Defined schema and data-fetching logic using type definitions and resolvers, ensured secure data manipulation with mutations.
- Implemented authentication using **Passport.js** and deployed the application on **Render**, configuring cron jobs for scheduled tasks.

EDUCATION

Post-Graduate Certificate in Web Development

Sep. 2023 – Aug. 2024

Humber College

Bachelor of Science in Computer Software Engineering

Sep. 2014 – Apr. 2018

Azad University

CERTIFICATIONS

- **Scaled Agile Inc. - Frameworks 5 Agilest (SAFe®)** Aug. 2022
